

## 7-9 Year Olds

**9:00**

**Class: Explore Science**

**Ages: 7-9**

**Teacher:** April Burnett (662-8672)

**Materials fee:** \$10

**Description:** Exploring God's creation. Call instructor for more details.

**Homework:** none

**10:00**

**Class: History: Famous Dates to Remember**

**Ages: 7-9**

**Teacher:** Megan Matthews (884-2682)

**Materials fee:** \$5

**Class size (min/max):** 4-15

**Prerequisites:** Ability to read and put a project together with parent's help.

**Description:** This class will follow the calendar year and will cover all the popular and celebrated holidays. We will begin with Labor Day and finish the year with July 4<sup>th</sup>. Each week will be a different holiday that will be presented by one student. The project will be constructed on poster board and will include information on the history of the holiday, activities, fun facts, hands-on "artifacts" and any other trivia! The teacher will assist in the presentations along with bringing other information, handouts, related holiday foods, videos, etc. This class is such a fun method for learning for the students and they will enjoy celebrating and studying these holidays.

**Homework & grades:** Homework is one project per session. No grades.

**10:00**

**Class: Handwriting**

**Ages: 8-12**

**Teacher:** Laurie Buhler (886-8462)

**Materials fee:** \$10

**Description:** Cursive handwriting instruction. Laurie is an expert in the field of reading and writing instruction! Take advantage of her knowledge and experience working with children who struggle to write.

**Homework:** 15 minutes a day

**All hours**

**Study Hall** is available all four hours for students who are not enrolled in another class. Students should bring something to do every week and be able to work quietly and independently.

**10:00**

**Class: Latin I**

**Ages: 8+**

**Teacher: Matt Turnbull** (548-8500)

**Tuition/Materials fees:** tuition \$90.00 per session (2 paymts of \$45)/materials \$0

**Text: *Latin for Children, Primer A*** by Larsen and Perrin

**Class Size:** 4 - 18

**Prerequisite:** none

**Description:** As an English teacher, I am often asked which grammar curriculum I would recommend. My answer is Latin. As anyone who has studied a foreign language knows, the way to learn English and its structure is to study another language. Because Latin is so logical, orderly, and rule-abiding in its construction, it not only fosters thorough grammatical understanding, but also trains the mind to reason according to principles, much like math. Aside from these functional benefits, Latin is a majestic doorway into the medieval and classical worlds. Please check the tutor's website for details about ordering the text as the summer progresses:
