

# VALLEY HOME EDUCATORS

## JUNE 2005 UPDATE

### **Educational Service District Training for ProQuest and eLibrary**

I know I tried to get this training going earlier but the ESD staff has been in transition as has been their budget so nothing was scheduled this spring. Lets get together and learn all there is about the Educational Service District's online research options - ProQuest and eLibrary.

If you are interested in becoming a member or are a member but never understood how to utilize this feature, email me and I will start a list of interested people. It sounds as though we have a better chance at getting into the meeting rooms before school starts. They have 20 wireless computers to aid in our training session.

General membership sign ups for ESD will be sometime in the fall, so mark your calandars.
