March 2007 Newsletter Update #1

Book Buy Back for Running Start Students

If anyone is interested, I would be happy to put together a list of textbooks for WVC courses that people would like to sell at the end of this quarter. It seems like they don't give much notice, so if you are interested in selling this way, you can email me the name, publisher, edition, your asking price, course, and instructor ASAP. I will then put them together and send out an email update through the VHE newsletter, and any other email sources you may have. Then we can ask prospective buyers to respond directly to you by a certain date that will still give you time to sell them back to the bookstore by the deadline.

Please respond to Janet Searles, jangar79@charter.net, or 884-2923.
